THEIR LAST CHRISTMAS

Recklessly spending on gifts and parties, Teresa is desperate to give her girls a holiday they'll remember — before she goes to jail

FRIDAY 12/12

Marco Polo

Richelmy (right) shot in Italy, Kazakhstan and Malaysia.

★★★★☆

Royal intrigue! Spectacular Army battles! Fortune-cookie dialogue? They all click, surprisingly, in this lavish drama, an enjoyable account of how earnest Italian Marco Polo (**Lorenzo Richelmy**) befriended Mongolian emperor Kublai Khan (**Benedict Wong**) in 13th century

China. In his portrayal of the legendary explorer, Richelmy could use an ounce more charisma. Yet the women in his world, from a desperate concubine (**Olivia Cheng**) to an ass-kicking warrior (**Claudia Kim**), demand attention. (Netflix, all 10 episodes available)

"I'm kind of shy," confesses Birkhead.

SUNDAY 12/7

The Millionaire Matchmaker

★★★★☆

Matchmaker is evolving: First, **Patti Stanger** dials down the tough love in season 8, letting Cupid just strike (or miss) without haranguing her clients. And she's now matching celebrity singles and using stars such as **Kristin Cavallari** as guest "experts." Nobody's an A-lister, but it's a nice move. In the premiere, her savvy read of **Larry Birkhead** (the late Anna Nicole Smith's baby-daddy) helps her find him a genuinely worthy date. (Bravo, 9:30 P.M.)

SUNDAY 12/7

The Librarians

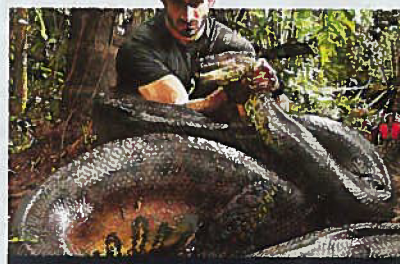

★★★★☆

The family-friendly Librarian TV movies, starring **Noah Wyle** as the protector of a secret library stuffed with magical items like the Ark of the Covenant, make a delightful big-budget series. **Rebecca Romijn** fits right into the exuberant derring-do as a counterterrorist agent plucked to aid the Librarian (Wyle, now recurring). Once they assemble a *Mission: Impossible*-esque team of eccentric geniuses to protect King Arthur's crown, it's popcorn time! (TNT, 8 P.M.)

Romijn (center) is the Librarian's guardian.

ON THIS WEEK

Rosolie hits the rain forest in Peru.

SUNDAY 12/7

EATEN ALIVE

It's hard to say what's bigger in this two-hour special: the 27-foot anaconda that's supposed to make a meal of **Paul Rosolie**, or the controversy born of the adventurer's nutty stunt. Note: A protective suit makes him undigestible. (Discovery, 9 P.M.)

MONDAY 12/8

THE FOSTERS

In this special episode, fostered teen Callie (**Maia Mitchell**) professes her love for housemate Brandon (**David Lambert**), leading him to recall their makeshift family's first Christmas. Mom Stef (**Teri Polo**) was Grinchy! (ABC Family, 8 P.M.)

MONDAY 12/8

MIKE & MOLLY

Season 5 = sexy time! Back from writers' camp, Molly (**Melissa McCarthy**) has good news: She penned a *Fifty Shades of Grey*-type novel and sold it! The book offers "life lessons between the orgies," she insists. (CBS, 8:30 P.M.)

THURSDAY 12/11

BONES

The drama's Alfred Hitchcock-inspired 200th episode reimagines Brennan (**Emily Deschanel**) as a lady detective in 1950s Hollywood. Her man Booth (**David Boreanaz**)? A charming jewel thief framed for murrder. (Fox, 8 P.M.)
